Independent Auditor's Report

To the Members of LEAP India Limited (formerly known as LEAP India Private Limited)

Report on the Audit of the Consolidated Financial Statements

Opinion

1. We have audited the accompanying consolidated financial statements of **LEAP India Limited (formerly known as LEAP India Private Limited)** ('the Holding Company') and its subsidiaries (the Holding Company and its subsidiaries together referred to as 'the Group'), as listed in Annexure I, which comprise the Consolidated Balance Sheet as at **31 March 2026**, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Statement of Cash Flow and the Consolidated Statement of Changes in Equity for the year then ended, and notes to the consolidated financial statements, including material accounting policy information and other explanatory information.
2. In our opinion and to the best of our information and according to the explanations given to us the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 ('the Act') in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards ('Ind AS') specified under section 133 of the Act, read with the Companies (Indian Accounting Standards) Rules, 2015, and other accounting principles generally accepted in India of the consolidated state of affairs of the Group, as at 31 March 2026, and their consolidated profit (including other comprehensive income), consolidated cash flows and the consolidated changes in equity for the year ended on that date.

Basis for Opinion

3. We conducted our audit in accordance with the Standards on Auditing specified under section 143(10) of the Act. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ('ICAI') together with the ethical requirements that are relevant to our audit of the consolidated financial statements under the provisions of the Act and the rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

LEAP India Limited (formerly known as LEAP India Private Limited)
Independent Auditor's Report on the Audit of the consolidated financial statements

Information other than the Consolidated Financial Statements and Auditor's Report thereon

4. The Holding Company's Board of Directors are responsible for the other information. The other information comprises the information included in the Directors Report, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

5. The accompanying consolidated financial statements have been approved by the Holding Company's Board of Directors. The Holding Company's Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to the preparation and presentation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated changes in equity and consolidated cash flows of the Group in accordance with the Ind AS specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, and other accounting principles generally accepted in India. The Holding Company's Board of Directors are also responsible for ensuring accuracy of records including financial information considered necessary for the preparation of consolidated Ind AS financial statements. Further, in terms of the provisions of the Act the respective Board of Directors of the companies included in the Group covered under the Act are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error. These financial statements have been used for the purpose of preparation of the consolidated financial statements by the Board of Directors of the Holding Company, as aforesaid.
6. In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Group are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.
7. Those respective Board of Directors are also responsible for overseeing the financial reporting process of the companies included in the Group.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

8. Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

LEAP India Limited (formerly known as LEAP India Private Limited)
Independent Auditor's Report on the Audit of the consolidated financial statements

9. As part of an audit in accordance with Standards on Auditing specified under section 143(10) of the Act we exercise professional judgment and maintain professional skepticism throughout the audit. We also:
- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
 - Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act we are also responsible for expressing our opinion on whether the Holding Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls;
 - Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management;
 - Conclude on the appropriateness of Board of Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern;
 - Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation; and
 - Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group, to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of financial statements of such entities included in the consolidated financial statements, of which we are the independent auditors. For the other entities included in the consolidated financial statements, which have been audited by the other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.
10. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Other Matter

11. The accompanying consolidated financial statements include the financial information of one (1) subsidiary, which has not been audited, and whose financial information reflect total assets of Nil as at 31 March 2026, total revenues of Nil and net cash flows amounting to Nil for the year ended on that date, as considered in the consolidated financial statements. This financial information has been furnished to us by the Holding Company's management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of the aforesaid subsidiary, and our report in terms of sub-section (3) of section 143 of the Act in so far as it relates to the aforesaid subsidiary, is based solely on such unaudited financial information. In our opinion and according to the information and explanations given to us by the management, this financial information is not material to the Group.

Our opinion above on the consolidated financial statements, and our report on other legal and regulatory requirements below, are not modified in respect of the above matter with respect to our reliance on the financial information certified by the management.

Report on Other Legal and Regulatory Requirements

12. As required by section 197(16) of the Act, based on our audit, we report that the Holding Company incorporated in India whose financial statements have been audited under the Act has paid remuneration to their respective directors during the year in accordance with the provisions of and limits laid down under section 197 read with Schedule V to the Act. Further, we report that one (1) subsidiary incorporated in India whose financial statements have been audited under the Act has not paid or provided for any managerial remuneration during the year. Accordingly, reporting under section 197(16) of the Act is not applicable in respect of such subsidiary.
13. As required by clause (xxi) of paragraph 3 of Companies (Auditor's Report) Order, 2020 ('the Order') issued by the Central Government of India in terms of section 143(11) of the Act based on the consideration of the Order reports issued by us, of companies included in the consolidated financial statements and covered under the Act we report that:
- A) Following are the qualifications/adverse remarks reported by us in the Order report of the Company included in the consolidated financial statements for the year ended 31 March 2026 for which such Order report has been issued till date:

Sr No	Name	CIN	Holding Company/ Subsidiary	Clause number of the CARO report which is qualified or adverse
1	LEAP India Limited	U74900MH2013PLC245166	Holding Company	Clause ii(b)
2	Taron Material Handling Equipments Private Limited	U74999MH2018PTC313884	Subsidiary	Clause ii(b)

14. As required by section 143(3) of the Act, based on our audit, we report, to the extent applicable, that:
- a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit of the aforesaid consolidated financial statements;
- b) Except for the matters stated in paragraph 14(h)(vi) below on reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014 (as amended), in our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books;
- c) The consolidated financial statements dealt with by this report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated financial statements;
- d) In our opinion, the aforesaid consolidated financial statements comply with Ind AS specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015;
- e) On the basis of the written representations received from the directors of the Holding Company and its subsidiary and taken on record by the Board of Directors of the Holding Company and its subsidiary respectively, covered under the Act, none of the directors of the Holding Company and its subsidiary, are disqualified as on 31 March 2026 from being appointed as a director in terms of section 164(2) of the Act.
- f) The qualification relating to the maintenance of accounts and other matters connected therewith with respect to the consolidated financial statements are as stated in paragraph 14(b) above on reporting under section 143(3)(b) of the Act and paragraph 14(h)(vi) below on reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014 (as amended);

LEAP India Limited (formerly known as LEAP India Private Limited)
Independent Auditor's Report on the Audit of the consolidated financial statements

- g) With respect to the adequacy of the internal financial controls with reference to financial statements of the Holding Company and its subsidiary covered under the Act, and the operating effectiveness of such controls, refer to our separate report in 'Annexure II' wherein we have expressed an unmodified opinion; and
- h) With respect to the other matters to be included in the Auditor's Report in accordance with rule 11 of the Companies (Audit and Auditors) Rules, 2014 (as amended), in our opinion and to the best of our information and according to the explanations given to us:
- i. The consolidated financial statements disclose the impact of pending litigations on the consolidated financial position of the Group as detailed in note 38(b) to the consolidated financial statements;
 - ii. The Holding Company and its subsidiaries did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses as at 31 March 2026;
 - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Holding Company and its subsidiary covered under the Act, during the year ended 31 March 2026;
 - iv.
 - a. The respective managements of the Holding Company and its subsidiary incorporated in India whose financial statements have been audited under the Act have represented to us, to the best of their knowledge and belief, as disclosed in note 47(iv) to the consolidated financial statements, no funds have been advanced or loaned or invested (either from borrowed funds or securities premium or any other sources or kind of funds) by the Holding Company or its subsidiary to or in any person(s) or entity(ies), including foreign entities ('the intermediaries'), with the understanding, whether recorded in writing or otherwise, that the intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Holding Company, or any such subsidiary ('the Ultimate Beneficiaries') or provide any guarantee, security or the like on behalf the Ultimate Beneficiaries;
 - b. The respective managements of the Holding Company and its subsidiary incorporated in India whose financial statements have been audited under the Act have represented to us, to the best of their knowledge and belief, as disclosed in the note 47(v) to the accompanying consolidated financial statements, no funds have been received by the Holding Company or its subsidiaries from any person(s) or entity(ies), including foreign entities ('the Funding Parties'), with the understanding, whether recorded in writing or otherwise, that the Holding Company, or any such subsidiaries shall, whether directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ('Ultimate Beneficiaries') or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and
 - c. Based on such audit procedures performed by us, as considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the management representations under sub-clauses (a) and (b) above contain any material misstatement.
 - v. The Holding Company and its subsidiaries have not declared or paid any dividend during the year ended 31 March 2026.

LEAP India Limited (formerly known as LEAP India Private Limited)
Independent Auditor's Report on the Audit of the consolidated financial statements

- vi. As stated in note 51 to the consolidated financial statements and based on our examination which included test checks of the Holding Company and its subsidiary, which are companies incorporated in India and audited under the Act, the Holding Company and its subsidiary, in respect of financial year commencing on 1 April 2025, have used accounting software for maintaining their books of account which have a feature of recording audit trail (edit log) facility and the same have been operated throughout the year for all relevant transactions recorded in the software. Further, during the course of our audit we did not come across any instance of audit trail feature being tampered with, other than the consequential impact of the exception given below. Furthermore, the audit trail has been preserved by the Holding Company and subsidiary as per the statutory requirements for record retention where the audit trail feature was enabled.

Nature of exception noted	Details of exception
Instances of accounting software maintained by a third party where we are unable to comment on the audit trail feature at database level	The accounting software used for maintenance of books of accounts of the Holding Company and its subsidiary is operated by a third-party software service provider. In the absence of any information on existence of audit trail (edit logs) for any direct changes made at the database level in the 'Independent Service Auditor's Report on the Suitability of the Design and Operating Effectiveness of Controls' ('Type 2 report' issued in accordance with ISAE 3402, Assurance Reports on Controls at a Service Organisation), we are unable to comment on whether audit trail feature with respect to the database of the said software was enabled and operated throughout the year including its retention.

LEAP India Limited (formerly known as LEAP India Private Limited)
Independent Auditor's Report on the Audit of the consolidated financial statements

Annexure I

List of subsidiaries included in consolidated financial statements (Also, refer note 44.1)

Sr No.	Subsidiaries
1	Taron Material Handling Equipments Private Limited
2	LEAP GULF Company (w.e.f. 3 December 2025)

Annexure II

Independent Auditor's Report on the internal financial controls with reference to financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ('the Act')

1. In conjunction with our audit of the consolidated financial statements of **LEAP India Limited (formerly known as LEAP India Private Limited)** ('the Holding Company') and its subsidiary (the Holding Company and its subsidiary together referred to as 'the Group'), as at and for the year ended **31 March 2026**, we have audited the internal financial controls with reference to financial statements of the Holding Company and its subsidiary company, which are companies covered under the Act, as at that date.

Responsibilities of Management and Those Charged with Governance for Internal Financial Controls

2. The respective Board of Directors of the Holding Company and its subsidiary company, which are companies covered under the Act, are responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to financial statements criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting ('the Guidance Note') issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of the Company's business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility for the Audit of the Internal Financial Controls with Reference to Consolidated Financial Statements

3. Our responsibility is to express an opinion on the internal financial controls with reference to financial statements of the Holding Company and its subsidiary company, as aforesaid, based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the ICAI prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to financial statements, and the Guidance Note issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements were established and maintained and if such controls operated effectively in all material respects.
4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements includes obtaining an understanding of such internal financial controls, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.
5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls with reference to financial statements of the Holding Company and its subsidiary company as aforesaid.

Meaning of Internal Financial Controls with Reference to Consolidated Financial Statements

6. A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with Reference to Consolidated Financial Statements

7. Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Holding Company and its subsidiary company, which are companies covered under the Act, have in all material respects, adequate internal financial controls with reference to consolidated financial statements and such controls were operating effectively as at 31 March 2026, based on the internal financial controls with reference to financial statements criteria established by the Holding Company and its subsidiary considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

LEAP India Limited (formerly known as LEAP India Private Limited)
Notes to the consolidated financial statements as at and for the year ended 31 March 2026
(Amount in ₹ million, except for share data, and if otherwise stated)

1. Corporate information

LEAP India Limited (formerly known as LEAP India Private Limited) (the "Holding Company" or "the Company" or "LIL") was incorporated on 03 July 2013 (CIN: U74900MH2013PLC245166) is a Company domiciled in India under the provisions of the erstwhile Companies Act, 1956. The Holding Company has been converted from Private Limited Company to Public Limited Company pursuant to special resolution passed at the Extraordinary General Meeting of the shareholders held on 17 July 2025 and consequently the name has been changed to LEAP India Limited, and a revised certificate of incorporation dated 31 July 2025, has been issued by the Ministry of Corporate Affairs. The Holding Company's registered office is located at 14th Floor, Commerz, International Business Park, Oberoi Garden City, Off Western Express Highway, Goregaon (East), Mumbai, Maharashtra, India, 400063.

The Holding Company and its subsidiaries, together referred to as 'the Group' is engaged in the business of pooling of resources for providing customised and best in class services to automotive sector and Fast-Moving Consumer Goods (FMCG) industry in the supply chain arena. The consolidated financial statements ("the financial statements") comprises the financial statements of the Group for the year ended 31 March 2026, were authorised for issue in accordance with the resolution of the Board of Directors on **21 July 2026**.

2. Material accounting policy information :

2.1 Basis of preparation

The consolidated financial statements of the Group have been prepared to comply in all material respects with the Indian Accounting Standards ("Ind AS") as prescribed under Section 133 of the Companies Act, 2013 ('the Act') read with Companies (Indian Accounting Standards) Rules as amended from time to time notified under the Companies (Accounting Standards) Rules, 2015. The Group has uniformly applied the accounting policies for all the periods presented in these financial statements.

The consolidated financial statements have been prepared on going concern basis in accordance with accounting principles generally accepted in India. Further, the consolidated financial statements have been prepared on historical cost convention except for certain financial assets and financial liabilities which are measured at fair values and employee benefit plans which are measured using actuarial valuation as explained in relevant accounting policy, on accrual basis of accounting.

The consolidated statement of cash flow has been prepared under the indirect method as set out in Indian Accounting Standard (Ind AS 7) Statement of Cash Flows.

2.2 Principles of consolidation

The subsidiary is the entity over which the Group exercises control. The Group controls an entity where the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the relevant activities of the entity. Subsidiary is fully consolidated from the date on which control is transferred to the Group. It is deconsolidated from the date that control ceases.

The Consolidated Financial Statements have been prepared on the following basis:

- The financial statements of the Holding Company and the subsidiaries have been consolidated on a line-by-line basis by adding together the book value of like items of assets, liabilities, income and expenses, after eliminating intra-group balances and intra-group transactions resulting in unrealized profits or unrealized cash losses.
- The financial statements of the subsidiaries used for the purpose of consolidation is drawn up to the same reporting date as of the Group.
- The consolidated financial statements have been prepared using uniform accounting policies for like transactions and other events in similar circumstances and are presented, to the extent possible, in the same manner as the Holding Company's separate financial statements.

2.3 Operating cycle for current and non-current classification

All the assets and liabilities have been classified as current or non-current, wherever applicable, as per the operating cycle of the Group as per the guidance set out in Schedule III to the Companies Act, 2013. An asset is treated as current when it is:

- Expected to be realised or consumed in normal operating cycle
- Held primarily for the purpose of trading
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period. All other assets are classified as non-current.

LEAP India Limited (formerly known as LEAP India Private Limited)
Notes to the consolidated financial statements as at and for the year ended 31 March 2026
(Amount in ₹ million, except for share data, and if otherwise stated)

A liability is current when:

- It is expected to be settled in normal operating cycle
- It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

Operating cycle for the business activities of the Group is based on the nature of products and the time between the acquisition of assets for sale and their realisation in cash and cash equivalents. The Group has ascertained its operating cycle as up to twelve months for the purpose of current and non-current classification of assets and liabilities.

2.4 Fair value measurement

The Group measures financial instruments, at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their best economic interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data is available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs. All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3 - Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

At each reporting date, the Management analyses the movements in the values of assets and liabilities which are required to be remeasured or re-assessed as per the Group's accounting policies. For this analysis, the Management verifies the major inputs applied in the latest valuation by agreeing the information in the valuation computation to contracts and other relevant documents.

The Management also compares the change in the fair value of each asset and liability with relevant external sources to determine whether the change is reasonable.

2.5 Property, plant and equipment

Property, plant and equipment are stated at cost of acquisition including attributable interest and finance costs, if any, till the date of acquisition/ installation of the assets less accumulated depreciation and impairment losses, if any. Cost of acquisition comprises the purchase price and any directly attributable cost of bringing the asset to its working condition for its intended use. Any trade discounts and rebates are deducted in arriving at the purchase price.

LEAP India Limited (formerly known as LEAP India Private Limited)
Notes to the consolidated financial statements as at and for the year ended 31 March 2026
(Amount in ₹ million, except for share data, and if otherwise stated)

Subsequent expenditure relating to property, plant and equipment is capitalised only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All other expenses on existing plant, property and equipment including day-to-day repair and maintenance expenditure and cost of replacing parts, are charged to the Consolidated Statement of Profit and Loss for the period during which such expenses are incurred.

Expenses relating to major repairs which result in increase in the life of the asset are capitalised.

An item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. The cost and related accumulated depreciation are eliminated from the financial statements, either on disposal or when retired from active use. Gains or losses arising from derecognition of property, plant and equipment are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the Consolidated Statement of Profit and Loss when the asset is derecognised.

2.6 Capital work-in-progress

Capital work-in-progress, representing expenditure incurred in respect of assets under development and not ready for their intended use, are carried at cost. Cost includes related acquisition expenses, construction cost, related borrowing cost and other direct expenditure

2.7 Intangible assets

Identifiable intangible assets are recognised when it is probable that future economic benefits attributed to the asset will flow to the Group and the cost of the asset can be reliably measured.

Intangible assets are carried at cost less accumulated amortization and impairment losses, if any. The cost of an intangible asset comprises of its purchase price, including any import duties and other taxes (other than those subsequently recoverable from the taxing authorities), and any directly attributable expenditure on making the asset ready for its intended use. Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the Group. The amortisation expense on intangible assets with finite life is recognised in the Consolidated Statement of Profit and Loss under the head 'Depreciation and amortization expense. An intangible asset is derecognised upon disposal (i.e., at the date the recipient obtains control) or when no future economic benefits are expected from its use or disposal.

Intangible Assets Under Development (IAUD) comprises of direct cost, related incidental expenses and attributable borrowing cost, if any, on intangible assets which are not ready for their intended use. IAUD usually pertain to a product development project which has reached a defined milestone according to an established project management model and its technological and economic feasibility is viable. Expenditure on research activities is recognised in Consolidated Statement of Profit and Loss as incurred.

2.8 Depreciation and amortization

Depreciation is provided for property, plant and equipment so as to expense the cost less residual value over their estimated useful lives on a straight-line method. Intangible assets are amortised from the date they are available for use, over their estimated useful lives.

The residual values in respect of pallets, foldable large containers & crates and utility boxes based on management estimate and technical evaluation is as follows:

- Pallets: 25%
- Foldable large containers & crates: 15-25%
- Utility boxes: 25%.

LEAP India Limited (formerly known as LEAP India Private Limited)
Notes to the consolidated financial statements as at and for the year ended 31 March 2026
(Amount in ₹ million, except for share data, and if otherwise stated)

The estimated useful lives are as mentioned below:

Class of asset	Useful life estimated by management (years)
Forklifts	8
Batteries	5 to 10
Computer and IT equipment	3
Furniture and fixtures	5
Motor vehicles	5 to 10
Building	30 to 60
Plant and other equipments	3 to 10
Office equipments	5
Computer software	2 to 10
Trademarks	3
Customer Relationship	10
Pallets	15
Containers (FLC's and crates)	3 to 7
Other than wooden pallets	3 to 7
Utility boxes	3 to 7
Other pooling assets	3 to 15
Leasehold improvement	3 to 5

Schedule II to the Companies Act, 2013 prescribes useful lives for property, plant and equipment and allows companies to use higher/ lower useful lives and residual values if such useful lives and residual values can be technically supported and justification for difference is disclosed in the financial statements. The management believes that the depreciation rates currently used fairly reflect its estimate of the useful lives and residual values of property, plant and equipment.

Depreciation/ amortisation on property plant and equipment has been provided on the straight-line method as per the useful life assessed based on technical advice, taking into account the nature of the asset, the estimated use of the asset on the basis of management's best estimation of getting economic benefits from that class of assets.

The Group uses its external technical expertise along with historical and industry trends for arriving at the economic life of an asset. The estimated useful life and residual values are reviewed at each period end and the effect of any change in the estimates of useful life/residual value is accounted on prospective basis.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount. Depreciation on additions is provided on a pro-rata basis, from the date on which asset is ready to use.

Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are accounted in the Consolidated Statement of Profit and Loss under other income or other expenses.

2.9 Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets

Initial recognition and measurement

In the case of financial assets, not recorded at fair value through profit or loss (FVTPL), financial assets other than trade receivable, are recognised initially at fair value plus transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the marketplace (regular way trades) are recognised on the trade date, i.e., the date that the Group commits to purchase or sell the asset.

LEAP India Limited (formerly known as LEAP India Private Limited)
Notes to the consolidated financial statements as at and for the year ended 31 March 2026
(Amount in ₹ million, except for share data, and if otherwise stated)

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in following categories:

i. Financial assets measured at amortised cost

A financial asset is subsequently measured at the amortised cost if both the following conditions are met:

- a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in interest income in the Consolidated Statement of Profit and Loss.

ii. Equity investments

All equity investments in scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the Group decides to classify the same either as at fair value through other comprehensive income (FVTOCI) or FVTPL. The Group makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the Group decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to Consolidated Statement of Profit and Loss, even on sale of investment. However, the Group may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the Consolidated Statement of Profit and Loss. The Group has classified its investments in mutual funds as Investments at FVTPL.

Derecognition

The Group derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party. If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

On de-recognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received, and receivable is recognised in the Consolidated Statement of Profit and Loss.

Impairment of financial assets

The Group applies expected credit loss (ECL) model for recognising impairment loss on financial assets measured at amortised cost.

The Group follows 'simplified approach' for recognition of impairment loss allowance on trade receivables. The application of a simplified approach does not require the Group to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECL at each reporting date, right from its initial recognition.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12-month ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months after the reporting date.

As a practical expedient, the Group uses a provision matrix to determine impairment loss allowance on portfolio of its trade receivables. The provision matrix is based on its historically observed default rates over the expected life of the trade receivables and is adjusted for forward-looking estimates. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

LEAP India Limited (formerly known as LEAP India Private Limited)
Notes to the consolidated financial statements as at and for the year ended 31 March 2026
(Amount in ₹ million, except for share data, and if otherwise stated)

ECL impairment loss allowance (or reversal) recognized during the period is recognized as expenses in the Consolidated Statement of Profit and Loss. This amount is reflected under the head 'other expenses' in the Consolidated Statement of Profit and Loss.

Equity instruments and financial liabilities

Financial liabilities and equity instruments issued by the Group are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of the Group after deducting all of its liabilities. Equity instruments which are issued for cash are recorded at the proceeds received, net of direct issue costs. Equity instruments which are issued for consideration other than cash are recorded at fair value of the equity instrument.

Financial liabilities

Initial recognition and measurement

All financial liabilities are recognised initially at fair value and, in the case of financial liabilities at amortized cost, net of directly attributable transaction costs.

Subsequent measurement

All financial liabilities except derivatives are subsequently measured at amortised cost using the effective interest rate method.

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the net carrying amount on initial recognition.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the Consolidated Statement of Profit and Loss.

Compound financial instruments

Convertible instruments are separated into liability and equity components based on the terms of the contract. On issuance of the said instruments, the liability component is arrived by discounting the gross sum (including redemption premium, if any) at a market rate for an equivalent non-convertible instrument. This amount is classified as a financial liability measured at amortised cost until it is extinguished on conversion or redemption. The remainder of the proceeds is recognised as equity component of compound financial instrument. This is recognised and included in shareholders' equity, net of income tax effects, and not subsequently re-measured.

Offsetting financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis or to realise the assets and settle the liabilities simultaneously.

Equity investment in subsidiaries

Investment in subsidiaries are carried at cost in the separate financial statements as permitted under Ind AS 27 "Separate Financial Statements".

LEAP India Limited (formerly known as LEAP India Private Limited)
Notes to the consolidated financial statements as at and for the year ended 31 March 2026
(Amount in ₹ million, except for share data, and if otherwise stated)

2.10 Revenue recognition

Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those goods or services.

The Group has generally concluded that it is the principal in its revenue arrangements. Revenue and trade receivables are recorded at their transaction price on initial recognition, which is the consideration, adjusted for discounts and other credits, if any, as specified in the contract with customers. The revenue is recognized as a net of Goods and Service Tax (if any).

Sale of goods

Revenue from the sale of the Group's core products pallets is recognised when delivery has taken place and control of the goods has been transferred to the customer according to the specific delivery term that have been agreed with the customer and when there are no longer any unfulfilled obligations.

Rendering of services

Income from services rendered is recognised based on agreements/arrangements with the customers as the service is performed and there are no unfulfilled obligations. Revenue from property, plant and equipment given on lease to customers is recognised on per day rent, based on the terms of the agreement. Revenue from the sale of goods is recognized when control of the goods or services are transferred to the customer, usually on delivery of the goods.

Interest income

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Group and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition. Other income is recognised as and when due or received, whichever is earlier.

Dividend income

Dividend income is recognised at the time when the right to receive is established by the reporting date. When the right to receive payment is established, it is probable that the economic benefits associated with the dividend will flow to the entity and the amount of the dividend can be measured reliably.

Unbilled revenue

Unbilled receivables (only act of invoicing is pending) when there is unconditional right to receive cash, and only passage of time is required, as per contractual terms and is accordingly classified under 'Trade Receivables'. Unearned ("contract liability") is recognised when there are billings in excess of revenues.

Advances from customers

Advances received from customers are recognized as a liability under 'Other Current Liabilities' until the related goods or services are delivered. Upon delivery, the advance is adjusted against revenue in accordance with Ind AS 115 – Revenue from Contracts with Customers.

2.11 Employee benefits

Short term employee benefits

Short-term employee benefits such as salaries, wages, performance incentives etc. are recognised as expenses at the undiscounted amounts in the Statement of Profit and Loss of the period in which the related service is rendered. Expenses on non-accumulating compensated absences is recognised in the period in which the absences occur.

LEAP India Limited (formerly known as LEAP India Private Limited)
Notes to the consolidated financial statements as at and for the year ended 31 March 2026
(Amount in ₹ million, except for share data, and if otherwise stated)

Defined contribution plan

Contributions to defined contribution schemes such as provident fund and employees' state insurance (ESIC) are charged as an expense based on the amount of contribution required to be made as and when services are rendered by the employee's provident fund contribution is made to a government administered fund and charged as an expense to the Consolidated Statement of Profit and Loss. The above benefits are classified as Defined Contribution Schemes as the Group has no further obligations beyond the monthly contributions.

Defined benefit plan

The Group's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in the current and prior periods, discounting that amount and deducting the fair value of any plan assets.

The calculation of defined benefit obligations is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a potential asset for the Group, the recognized asset is limited to the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the plan. To calculate the present value of economic benefits, consideration is given to any applicable minimum funding requirements.

Remeasurement of the net defined benefit liability, which comprise actuarial gains and losses and the effect of the asset ceiling (if any, excluding interest), are recognized immediately in other comprehensive income (OCI). Net interest expense (income) on the net defined liability (assets) is computed by applying the discount rate, used to measure the net defined liability (asset). Net interest expense and other expenses related to defined benefit plans are recognized in the Consolidated Statement of Profit and Loss.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service or the gain or loss on curtailment is recognized immediately in the Consolidated Statement of Profit and Loss. The Group recognizes gains and losses on the settlement of a defined benefit plan when the settlement occurs.

Leave entitlement and compensated balances

Accumulated leave which is expected to be utilised within next twelve months, is treated as short-term employee benefit. Leave entitlement, other than short term compensated absences, are provided based on an actuarial valuation, similar to that of gratuity benefit. However, as the Group does not have an unconditional right to defer settlement for these obligations, the above liabilities are presented as current. Re-measurement, comprising of actuarial gains and losses, in respect of leave entitlement are recognised in the consolidated statement of profit and loss in the period in which they occur.

2.12 Borrowing cost

Borrowing costs relating to acquisition, construction or production of a qualifying asset which takes substantial period of time to get ready for its intended use are added to the cost of such asset to the extent they relate to the period till such assets are ready to be put to use. Other borrowing costs are charged to the Statement of Profit and Loss in the period in which it is accrued. Any ancillary cost incurred in connection with the arrangement of borrowings are amortised over the period of such borrowings.

2.13 Inventories

Inventory of traded goods, consumables and stores and spares are valued at lower of cost or net realisable value. Cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on a weighted average basis.

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

2.14 Leases

The Group's lease asset classes primarily consist of leases for buildings (warehouse and office premises) and equipment. The Group assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

LEAP India Limited (formerly known as LEAP India Private Limited)
Notes to the consolidated financial statements as at and for the year ended 31 March 2026
(Amount in ₹ million, except for share data, and if otherwise stated)

Group as a lessee:

The Group applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Group recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

The Group accounts for each separate lease component of a contract and any associated non-lease components as a single lease component by allocating all of contract consideration to the lease component.

i) Right-of-use assets

At the commencement date, the right of use assets is measured at cost. The cost includes an amount equal to the lease liabilities plus adjusted for the amount of prepaid or accrued lease payments. After the commencement date, the right of use assets is measured in accordance with the accounting policy for property, plant and equipment i.e. right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. Right-of-use assets are depreciated on a straight-line basis over the period of the lease term. In addition, the carrying amount of Right-of-use assets is remeasured if there is a modification, a change in the lease term, a change in the in- substance fixed lease payments or a change in the assessments to purchase the underlying asset.

ii) Lease liabilities

At the commencement date of the lease, the Group recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees.

In calculating the present value of lease payments, the Group uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the in- substance fixed lease payments or a change in the assessments to purchase the underlying asset.

iii) Lease term

At the commencement date, the Group determines the lease term which represents non-cancellable period of initial lease for which the asset is expected to be used, together with the periods covered by an option to extend or terminate the lease, if the Group is reasonably certain at the commencement date to exercise the extension or termination option.

In event of termination of lease, the remaining lease liability and the unamortised value of the right of use asset are charged to the Consolidated Statement of Profit and Loss..

iv) Short-term leases and leases of low-value assets

The Group applies the short-term lease recognition exemption to its short-term leases (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases that are considered to be low value. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term or another systematic basis which is more representative of the pattern of use of underlying asset.

Group as a lessor:

Leases in which the Group does not transfer substantially all the risks and benefits of ownership of the asset are classified as operating leases. Assets subject to operating leases are included in fixed assets. Lease income on an operating lease is recognized in the Consolidated Statement of Profit and Loss on rendering of the service related to the hire of pallets and foldable large containers as per the agreement with customers. Costs, including depreciation, are recognized as an expense in the Consolidated Statement of Profit and Loss. Initial direct costs such as legal costs, brokerage costs, etc. are recognized immediately in the Consolidated Statement of Profit and Loss.

LEAP India Limited (formerly known as LEAP India Private Limited)
Notes to the consolidated financial statements as at and for the year ended 31 March 2026
(Amount in ₹ million, except for share data, and if otherwise stated)

2.15 Earnings per share

Basic earnings per share are calculated by dividing the net profit or loss (excluding OCI) for the period attributable to equity shareholders of the Holding Company by the weighted average number of equity shares and compulsory convertible preference shares outstanding during the period. The weighted average number of equity shares outstanding during the period is adjusted for events such as bonus issue, bonus element in a right issue, share split and reserve share splits (consolidation of shares) that have changed the number of equity shares outstanding, without a corresponding change in resources.

Diluted earnings per share is computed by dividing the profit/ (loss) for the period as adjusted for dividend, interest and other changes to expense and income (net of any attributable taxes) relating to the dilutive potential equity shares, by the weighted average number of equity shares considered for deriving basic earnings per share and the weighted average number of equity shares which could have been issued on the conversion of dilutive potential equity shares. Potential equity shares are deemed to be dilutive only if their conversion to equity shares would decrease the net profit per share from continuing ordinary operations. Potential dilutive equity shares are deemed to be converted as at the beginning of the period, unless they have been issued at a later date.

2.16 Taxes

Current tax

Current tax is recognised based on the estimated tax liability computed after taking credit for allowances and exemptions in accordance with the Income Tax Act, 1961. Current tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from, or paid to, the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted, or substantively enacted, at the reporting date in the countries where the Group operates and generates taxable income. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Income tax expense comprises of current tax expense and the net change in the deferred tax asset or liability during the period. Current and deferred taxes are recognised in the Statement of Profit and Loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity, respectively.

Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred tax

Deferred tax assets and liabilities are recognised for temporary differences arising between the tax bases of assets and liabilities and their carrying amounts.

Deferred tax is determined by applying the Balance Sheet approach. Deferred tax assets and liabilities are recognised for all deductible temporary differences between the financial statements' carrying amount of existing assets and liabilities and their respective tax base. Deferred tax assets and liabilities are measured using the enacted tax rates or tax rates that are substantively enacted at the Balance Sheet date. The effect on deferred tax assets and liabilities of a change in tax rates is recognised in the period that includes the enactment date.

Deferred tax assets are only recognised to the extent that it is probable that future taxable profits will be available against which the temporary differences can be utilised. Such assets are reviewed at each Balance Sheet date to reassess realisation.

Deferred tax assets include Minimum Alternative Tax (MAT) paid in accordance with the tax laws in India, to the extent it would be available for set off against future current income tax liability. Accordingly, MAT is recognised as deferred tax asset in the balance sheet when the asset can be measured reliably and it is probable that the future economic benefit associated with the asset will be realised.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

LEAP India Limited (formerly known as LEAP India Private Limited)
Notes to the consolidated financial statements as at and for the year ended 31 March 2026
(Amount in ₹ million, except for share data, and if otherwise stated)

2.17 Impairment of non-financial assets

The carrying amount of assets is reviewed at each balance sheet date if there is any indication of impairment based on internal/external factors. An impairment loss is recognized wherever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is the greater of the assets, net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and risks specific to the asset.

In determining net selling price, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used. After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life.

2.18 Provisions

A provision is recognised when the Group has a present obligation (legal or constructive) as a result of past events and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, in respect of which a reliable estimate can be made of the amount of obligation. Provisions (excluding gratuity and compensated absences) are determined based on management's estimate required to settle the obligation at the Balance Sheet date. In case the time value of money is material, provisions are discounted using a current pre-tax rate that reflects the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost. These are reviewed at each Balance Sheet date and adjusted to reflect the current management estimates.

2.19 Contingent liabilities, contingent assets and capital commitments

Contingent liabilities are disclosed in respect of possible obligations that arise from past events, whose existence would be confirmed by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group.

The Group exercises judgement in determining if a particular matter is possible, probable or remote. The Group exercises judgement in measuring and recognizing provisions and the exposures to contingent liabilities related to pending litigation or other outstanding claims subject to negotiated settlement, mediation, government regulation, as well as other contingent liabilities. Judgement is necessary in assessing the likelihood that a pending claim will succeed, or a liability will arise, and to quantify the possible range of the financial settlement.

Contingent assets are not recognised in the financial statements. However, it is disclosed only when an inflow of economic benefits is probable.

Capital commitments are future liabilities for contractual expenditure, classified and disclosed as estimated amount of contracts remaining to be executed on capital account and not provided for.

2.20 Goodwill Impairment

Goodwill on acquisitions of subsidiaries is not amortised but it is tested for impairment annually, or more frequently if events or changes in circumstances indicate that it might be impaired and is carried at cost less accumulated impairment losses. Gains and losses on the disposal of an entity include the carrying amount of goodwill relating to the entity sold.

Goodwill is allocated to cash-generating units for the purpose of impairment testing. The allocation is made to those cash-generating units or groups of cash-generating units that are expected to benefit from the business combination in which the goodwill arose. The units or groups of units are identified at the lowest level at which goodwill is monitored for internal management purposes.

Goodwill is tested for impairment, relying on a number of factors including operating results, business plans and future cash flows. Calculating the future net cash flows expected to be generated to determine if impairment exists and to calculate impairment involves significant assumptions, estimation and judgement. The estimated cash flows are prepared using internal forecasts.

LEAP India Limited (formerly known as LEAP India Private Limited)
Notes to the consolidated financial statements as at and for the year ended 31 March 2026
(Amount in ₹ million, except for share data, and if otherwise stated)

2.21 Business Combination

Business combinations, other than common control business combinations, are accounted for using the purchase (acquisition) method. The cost of an acquisition is measured as the fair value of the assets transferred, liabilities incurred or assumed and equity instruments issued at the date of exchange by the Company. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at fair value at the date of acquisition. Transaction costs incurred in connection with a business acquisition are expensed as incurred. The cost of an acquisition also includes the fair value of any contingent consideration measured as at the date of acquisition. Any subsequent changes to the fair value of contingent consideration classified as liabilities, other than measurement period adjustments, are recognised in the Statement of Profit and Loss. Goodwill represents the cost of acquired business as established at the date of acquisition of the business in excess of the acquirer's interest in the net fair value of the identifiable assets, liabilities and contingent liabilities less accumulated impairment losses, if any. Goodwill is tested for impairment annually or when events or circumstances indicate that the implied fair value of goodwill is less than the carrying amount.

Common Control business combinations, i.e. business combinations involving entities or businesses under common control, are accounted for using the pooling of interests method. The assets and liabilities of the combining entities are reflected at their carrying amounts. The identity of the reserves shall be preserved and shall appear in the financial statements of the transferee in the same form in which they appeared in the financial statements of the transferor. The surplus, if any, arising from the business combination, between the carrying value of assets, liabilities and reserves recognized over the carrying value of the investments in the equity shares of the transferor appearing in the books of the transferee, shall be credited to capital reserve in the books of accounts of the transferee and shall be presented separately from other capital reserves with disclosure of its nature and purpose in the notes. In case of a deficit, as computed above, it shall be adjusted against the existing capital or revenue reserves of the transferee, in that order, and unadjusted remaining amount, if any, shall be recorded separately as 'amalgamation adjustment deficit account' under 'Other Equity'.

- 2.22** These consolidated financial statements have been prepared in accordance with amended Schedule III to the Companies Act, 2013.

Other accounting policy information

2.23 Foreign currency transactions and balances

(i) Initial recognition

Foreign currency transactions are recorded in the reporting currency, by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency at the date of the transaction.

(ii) Conversion

Foreign currency monetary items are translated using the exchange rate prevailing at the reporting date. Non-monetary items which are measured in terms of historical cost denominated in a foreign currency are translated using the exchange rate at the date of the transaction; and non-monetary items which are carried at fair value denominated in a foreign currency are translated using the exchange rates that existed when the values were determined.

(iii) Exchange differences

Exchange differences arising on settlement or translation of monetary items are recognised in profit or loss except to the extent it treated as an adjustment to borrowing costs.

2.24 Cash and cash equivalents

Cash and cash equivalents comprise the net amount of short-term, highly liquid investments that are readily convertible to known amounts of cash (short-term deposits with an original maturity of three months or less) and are subject to an insignificant risk of change in value, cheques on hand and balances with banks. They are held for the purposes of meeting short-term cash commitments (rather than for investment or other purposes).

For the purpose of the Consolidated Statement of Cash Flows, cash and cash equivalents consist of cash and short-term deposits, as defined above.

LEAP India Limited (formerly known as LEAP India Private Limited)
Notes to the consolidated financial statements as at and for the year ended 31 March 2026
(Amount in ₹ million, except for share data, and if otherwise stated)

2.25 Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The chief operating decision maker regularly monitors and reviews the operating results of the whole Group as one segment since the Group's business operations falls within a single operating segment of pooling (for hire), trading of pallets and crates and services related thereto. Accordingly, the Group operation is a single segment in terms of its products. Thus, as defined in Ind AS 108 "Operating Segments", the Group's entire business falls under this one operational segment and hence the necessary information has already been disclosed in the Consolidated Balance Sheet and the Consolidated Statement of Profit and Loss.

2.26 Assets held for sale

The Group classifies assets as held for sale if their carrying amounts will be recovered principally through a sale transaction rather than through continuing use. This condition is regarded as met only when the asset is available for immediate sale in its present condition subject only to terms that are usual and customary for sales of such asset and its sale is highly probable. Such assets or group of assets / liabilities are presented separately in the Balance Sheet, in the line "Assets held for sale" and "Liabilities held for sale" respectively. Once classified as held for sale, intangible assets and PPE are no longer amortised or depreciated. Such assets or disposal groups held for sale are stated at the lower of carrying amount and fair value less costs to sell.

2.27 Share Issue Expenses

Securities premium is used for writing off the expenses which has been directly incurred towards the issue of shares of the Holding Company.

2.28 New Standards, Interpretations and Amendments Adopted by the Group

Standards and amendments effective from 1 April 2025

The Ministry of Corporate Affairs (MCA) has notified certain amendments to Ind AS. Key amendments relevant to the Group are summarised below:

• Ind AS 1 – Classification of Liabilities as Current or Non-current:

The amendment clarifies the meaning of a right to defer settlement, requires that such right must exist at the end of the reporting period, and confirms that classification is not affected by the likelihood of exercising this right. It also clarifies that the terms of a convertible liability affect classification only if the embedded derivative is equity classified.

The amendment is to be applied retrospectively in accordance with Ind AS 8. The Group has evaluated the impact and determined that these amendments do not have a material effect on the classification or presentation of liabilities for the year ended 31 March 2026.

• Ind AS 7 and Ind AS 107 – Disclosures: Supplier Finance Arrangements:

MCA via notification dated 13 August 2025 announced amendments to Ind AS 7, Statement of Cash Flows and Ind AS 107, Financial Instruments: Disclosures which introduced disclosure requirements with the objective to enable users of financial statements to assess how supplier finance arrangements affect an entity's liabilities, cashflows and exposure to liquidity risk. These amendments do not have an impact on recognition or measurement in the current financial statements.

2.29 Standards and amendments issued but not yet effective

Further amendments to Ind AS 1 – Non-current Liabilities with Covenants specify that if a covenant breach existing at the reporting date is rectified after the reporting date, such rectification shall be treated as a non-adjusting event under Ind AS 10. These amendments are effective for annual reporting periods beginning on or after 1 April 2026. The Group will evaluate the implications of these amendments upon their applicability. Based on the preliminary assessment, no material impact is expected on the recognition or measurement of liabilities.

2.30 Group companies considered for consolidation

Name of the entity	% Holding	Relationship
Taron Material Handling Equipments Private Limited	100%	Subsidiary
LEAP GULF Company w.e.f 3 December 2025	100%	Subsidiary

LEAP India Limited (formerly known as LEAP India Private Limited)
Notes to the consolidated financial statements as at and for the year ended 31 March 2026
(Amount in ₹ million, except for share data, and if otherwise stated)

2(a) Critical estimates and judgements

The preparation of financial statements in conformity with the recognition and measurement principles of Ind AS requires the management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the accompanying disclosure and the disclosure of contingent liabilities, at the end of the reporting period. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and future periods are affected. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities in future periods.

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial period, are described below. The Group based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Group. Such changes are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial statements.

- **Effective interest rate** - Refer note 2.9

- **Revenue recognition** - Refer note 2.10

- **Useful life of property, plant and equipment and intangible assets**

Property, plant and equipment and intangible assets represent a significant proportion of the asset base of the Group. The charge in respect of periodic depreciation is derived after determining an estimate of an asset's expected useful life and the expected residual value at the end of its life. The useful lives and residual values of Group's assets are determined by the management at the time the asset is acquired and reviewed periodically, including at each reporting date.

- **Deferred tax assets**

In assessing the realisability of deferred income tax assets, management considers whether some portion or all of the deferred income tax assets will not be realized. The ultimate realization of deferred income tax assets is dependent upon the generation of future taxable income during the periods in which the temporary differences become deductible. Management considers the scheduled reversals of deferred income tax liabilities, projected future taxable income and tax planning strategies in making this assessment. Based on the level of historical taxable income and projections for future taxable income over the periods in which the deferred income tax assets are deductible, management believes that the Group will realize the benefits of those deductible differences. The amount of the deferred income tax assets considered realizable, however, could be reduced in the near term if estimates of future taxable income during the carry forward period are reduced.

- **Defined benefit obligations and compensated absences**

The cost and present value of the gratuity obligation and compensated absences are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases, attrition rate and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

- **Leases**

The Group evaluates if an arrangement qualifies to be a lease as per the requirements of Ind AS 116. Identification of a lease required significant judgement. The Group uses significant judgement in assessing the lease term (including anticipated renewals) and the applicable discount rate. The Group revises the lease term if there is a change in non-cancellable period of a lease.

LEAP India Limited (formerly known as LEAP India Private Limited)
Notes to the consolidated financial statements as at and for the year ended 31 March 2026
(Amount in ₹ million, except for share data, and if otherwise stated)

- **Provisions, contingent liabilities, contingent assets and capital commitments**

Provisions are recognised when the Group has a present (legal or constructive) obligation as result of a past event and it is probable that the outflow of resources will be required to settle the obligation, and the amount can be reliably estimated. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

Contingent liabilities are disclosed in respect of possible obligations that arise from past events, whose existence would be confirmed by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group.

Contingent assets are not recognised in the financial statements. However, it is disclosed only when an inflow of economic benefits is probable.

Capital commitments are future liabilities for contractual expenditure, classified and disclosed as estimated amount of contracts remaining to be executed on capital account and not provided for.

- **Impairment of non-financial assets:**

Impairment exists when the carrying value of an asset or class of assets exceeds its recoverable amount, which is the higher of its fair value less costs of disposal and its value in use. There is significant estimation uncertainty in determining recoverable value. Recoverable value is taken as higher of value in use and fair value less costs to sell.

- **Impairment of financial assets:**

The impairment provisions for financial assets are based on assumptions about risk of default and expected cash loss. The Group uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on Group's past history, existing market conditions as well as forward looking estimates at the end of each reporting period.

- **Employees stock option plan:**

The Group recognizes expense relating to share-based payment in net profit using fair value in accordance with Ind AS 102-Share Based Payment. The grant date fair value of options granted to employees is recognized as an employee expense, with a corresponding increase in equity, over the period that the employees become unconditionally entitled to the options. Equity settled share-based compensation benefits are provided to employees under the employee stock option schemes/plans. The fair value of options granted under such schemes/plans is recognised as an employee benefits expense with a corresponding increase in equity as "Share options outstanding account". The total amount to be recognised is determined by reference to the fair value of the options granted: - including any market performance conditions (e.g., the entity's share price)

- excluding the impact of any service and non-market performance vesting conditions (e.g. profitability, sales growth targets and an employee of the entity continuing over a specified time period) and
- including the impact of any non-vesting conditions (e.g. the requirement for employees to hold shares for a specific period of time).

The total expenses are amortised over the vesting period, which is the period over which all of the specified vesting conditions are to be satisfied. At the end of each period, the entity revises its estimates of the number of options that are expected to vest based on the service and non-market performance vesting conditions. It recognises the impact of the revision to original estimates, if any, in the Consolidated Statement of Profit and Loss, with a corresponding adjustment to equity. In case vested options are forfeited / expires unexercised, the related balance standing to the credit of the "Share options outstanding account" is transferred to "Retained earnings".

- **Goodwill impairment**

The Group estimates the value in use of the cash generating unit (CGU) based on the future cash flows after considering current economic conditions and trends, estimated future operating results and anticipated future economic and regulatory conditions. Goodwill is tested for impairment, relying on a number of factors including operating results, business plans and future cash flows. Calculating the future net cash flows expected to be generated to determine if impairment exists and to calculate impairment involves significant assumptions, estimation and judgement. The estimated cash flows are prepared using internal forecasts.

4 Goodwill

Particulars	As at 31 March 2026	As at 31 March 2025
Carrying value at the beginning of the year	418.24	418.24
Carrying value at the end of the year	418.24	418.24
Goodwill has been allocated in the following CGUs:		
Renting of Forklift business	418.24	418.24

For the purpose of impairment testing, goodwill acquired in a business combination is allocated to the Cash Generating Units (CGU), which benefit from the synergies of the acquisition. The chief operating decision maker reviews the goodwill for any impairment at the CGU's level.

The recoverable amount of a CGU is the higher of its fair value less cost to sell and its value-in-use, both of which are calculated by the Group using a discounted cash flow analysis. These calculations use pre tax cash flow projections over a period of ten years, based on financial budgets approved by the management, considering various factors such as growth trends, growth and margin projections, terminal growth rates and useful life of forklifts. For calculation of the recoverable amount, the Group has used the following rates.

Particulars	As at 31 March 2026	As at 31 March 2025
Renting of forklift business		
- Growth rate	5.00%	5.00%
- Discount rate	15.40%	12.80%

The above discount rate is based on the weighted average cost of capital of the subsidiary of the Group. These estimates are likely to differ from future actual results of operations and cash flows.

An analysis of sensitivity of the computation to a change in key parameters (operating margins and discount rate) based on reasonably probable assumptions, did not identify any probable scenario in which recoverable amount of the CGU would decrease below its carrying amount.

As at 31 March 2026 and 31 March 2025, the estimated recoverable amount of the CGU exceeded its carrying amount, hence impairment is not triggered.

vi. Pursuant to purchase price allocation on acquisition of CHEP India Private Limited, the Holding Company had recognised a customer relationship as intangible asset at fair value in accordance with Ind AS 103. As the asset was not tax deductible at that time, a deferred tax liability was recognised with a corresponding adjustment to the Amalgamation Adjustment Deficit Account. The management in the current year, concluded that the amortization of such asset balance is tax deductible, resulting in the reversal of the deferred tax liability. Consistent with the original accounting treatment, the reversal has been adjusted in Amalgamation Adjustment Deficit Account.

12.4 Refer notes 20.1 and 22.1 for information on trade receivable pledged as security against borrowings of the Group.

12.5 Note 42 includes disclosures relating to the credit risk exposures and analysis relating to the allowance for expected credit losses.

12.6 Trade receivables are non-interest bearing and are generally on credit terms of 7 to 90 days

12.7 No trade or other receivable are due from directors or other officers of the Group either severally or jointly with any other person. Nor any trade or other receivable are due from firms or private companies respectively in which any director is a partner, a director or a member.

12.8 The Group recognises lifetime expected credit losses on trade receivable using simplified approach by computing the expected credit loss allowance for trade receivables based on a provision matrix. The provision matrix takes into account historical credit loss experience and is adjusted for forward looking information. The expected credit loss allowance is based on the ageing of the receivables that are due and rates used in provision matrix.

Note :

As per records of the Holding Company, including its register of shareholders/ members and other declarations received from shareholders regarding beneficial interest, the above shareholding represents both legal and beneficial ownerships of shares.

(f) Rights, preference and restrictions attached to each class of shares

(i) Equity shares

The Holding Company has only one class of equity shares having a par value of ₹ 1 per share (31 March 2025 : ₹ 1 per share). Each holder of equity shares is entitled to one vote per share. In the event of liquidation of the Holding Company, the holders of equity shares will be entitled to receive remaining assets of the Group, after distribution of all preferential amounts. The distribution will be in proportion to the number of equity shares held by the shareholders.

(ii) CCPS

In the event of liquidation of the Holding Company, the preference shareholders are entitled to the same economic rights as the equity shares of the Holding Company, however, in priority to the economic rights attached to the equity shares of the Holding Company. Each shareholder will be entitled to a dividend of 0.0001% (0.001% in Series H, Series I and Series K) in preference of equity shares, with cumulative dividend for all the Series. Dividend will be paid as and when it is declared and paid on equity shares.

(iii) Conversion terms

A Series :

1) Each preference share of Series A CCPS will automatically convert into equity shares upon occurrence of earlier of the following events :

- 19 years and 11 months from first / second / third / fourth completion dates.
- Immediately prior to the closing of the Qualified IPO.
- At the option of the holder of the Series A Preference Share at any time and from time to time.

2) Each Series A CCPS will be convertible, without the payment of any additional consideration by the holder thereof at the option of the holder thereof at any time and from time to time, into the number of fully paid equity shares determined by dividing the initial purchase price by the conversion price in effect at that time of conversion.

Note : For movement in other equity refer Consolidated Statement of Changes in Equity.

- (a) The acquisition and merger of CHEP India Private Limited by LEAP India Limited was completed in the previous year. In accordance with the Share Sale and Purchase Agreement dated 8 January 2025, any refunds or liabilities arising post-acquisition, but attributable to the pre-acquisition period, are required to be remitted to or recovered from CHEP Singapore Pte. Limited (the holding company of CHEP India Private Limited). During the current year, tax refunds and liabilities relating to such pre-acquisition period became determinable and certain. Accordingly, these balances have been recognised in the current year's financial statements as receivable from or payable to CHEP Singapore Pte. Limited and have been correspondingly adjusted against the Amalgamation Adjustment Deficit Account, in line with the terms of the agreement.

Notes and purpose of other equity and reserves :

- (i) **Securities premium**
Securities premium account is created when shares are issued at premium. The Holding Company may utilise the securities premium account to issue fully paid-up bonus shares to its members, for buy back of shares from its existing shareholders or otherwise, or to write off share issue expenses.
- (ii) **Retained earnings**
Retained earnings represents the cumulative profit/ loss of the Group and effects of remeasurements of defined benefits obligations routed through other comprehensive income.
- (iii) **Amalgamation adjustment deficit account**
The amalgamation adjustment deficit account represents the deficit arising from a business combination, between the carrying value of assets, liabilities and reserves recognized over the carrying value of the investments in the equity shares of the transferor i.e. CHEP India Private Limited appearing in the books of the Holding Company.
- (iv) **Share based payment reserve**
Share based payment reserve recognizes cumulative expenses towards equity settled awards or plans to employees, promoters or management. The Holding Company will utilize the share based payment reserve at the time of exercise of such awards.
- (v) **Capital redemption reserve**
Capital redemption reserve is created when buy-back of shares is out of free reserves, the nominal value of the shares so purchased is required to be transferred to capital redemption reserve from distributable profit.
- (vi) **Debenture redemption reserve**
Debenture redemption reserve is used to redeem the debentures issued by the Group. The Group is required to credit adequate amounts, out of profits every year to debenture redemption reserve, until such debentures are redeemed.

19.1 Other equity (Contd.)

Total revenue from operations	7,295.33	4,664.72
(ii) The following table gives details in respect of contract revenues generated from the top customer and top 5 customers for the year ended 31 March 2026 and 31 March 2025:		
Revenue from top customer	583.40	525.34
Revenue from top five customers	1,405.66	1,192.15
For the year ended 31 March 2026 none [31 March 2025: one (1)] of the customers individually accounted for more than 10% of the total revenue.		
27.1 The Group's business primarily comprises pooling of assets and providing these assets and equipments to customers on a rental basis at predetermined rates. Revenue from operations mainly represents rental income from these assets and other incidental services. The performance obligation is satisfied at a point in time, when the rental charges become due in accordance with the terms of the customer agreement. Rental charges are determined based on the total assets rented out and as per the agreed rates specified in customer contracts which is in accordance with the terms of such agreements. Accordingly, disclosure of revenue recognized from contracts disaggregated into categories has not been made.		
27.2 The amounts receivable from customers become due after expiry of credit period which on an average ranges between 7-90 days. There is no significant financing component in any transaction with the customers.		
27.3 The Group does not have any remaining performance obligation as contracts entered for sale of goods and services are for a shorter duration. Further, the Group's entire business falls under one operational segment of 'Pooling of resources'.		
27.4 There are no reconciliation items between revenue from contract with customers and revenue recognised with contract price.		
27.5 The Group's performance obligations are satisfied at a point in time, hence, there are no unsatisfied (or partially satisfied) performance obligations.		
27.6 Refer note 40 for related party transactions.

Net profit attributable to equity share holders for basic and diluted earnings per share	623.41	375.58
Calculation of EPS post issue of bonus shares :		
Basic & Diluted EPS for the year ended 31 March 2026 and 31 March 2025 presented below have been retrospectively adjusted on account of bonus issue.		
Computation of weighted average number of equity shares for basic earning per share :		
Weighted average equity shares outstanding during the year	120,730,296	112,479,951
Add : Effect of conversion of mandatorily convertible instruments :		
Compulsorily convertible preference shares	72,404,371	66,046,886
Impact of bonus issue [Refer note 18 (l)]	217,213,113	198,140,659
Number of shares for basic earning per share	410,347,780	376,667,496
Computation of weighted average number of equity shares for diluted earnings per share :		
Number of shares for basic earning per share	410,347,780	376,667,496
Add: Potential dilution on exercise of employee stock options	1,032,488	873,148
Add: Impact of bonus issue [Refer note 18(k)]	3,097,464	2,619,443
Weighted average number of equity shares adjusted for the effect of dilution	414,477,732	380,160,087
Earnings per share of face value ₹ 1 each		
Basic (in ₹)	1.52	1.00
Diluted (in ₹)	1.50	0.99
Nominal value per share (in ₹)	1.00	1.00

37 Leases - Ind AS 116

A Group as lessee:

The Group's leased assets primarily consist of leases for office premises and warehouse. Leases of office premises and warehouses generally have lease term between 1 to 5 years. The Group has applied low value exemption for leased laptops, furniture and equipment and accordingly are excluded from Ind AS 116. The leases includes non cancellable periods and renewable option at the discretion of lessee which has been taken into consideration for determination of lease term.

i) Set out below are the carrying amounts of right-of-use assets recognised and the movements during the year:

	Offices	Warehouses	Total
Gross carrying value			
As at 1 April 2024	35.32	886.90	922.22
Additions on account of business combination (Refer note 49.1)	81.60	-	81.60
Additions	210.86	705.83	916.69
Disposal	(80.81)	(153.18)	(233.99)
Modification	-	70.58	70.58
As at 31 March 2025	246.97	1,510.13	1,757.10
Additions	46.59	72.38	118.97
Disposal	(11.47)	(109.02)	(120.49)
Modification	13.57	616.80	630.37
As at 31 March 2026	295.66	2,090.29	2,385.95
Accumulated depreciation			
As at 1 April 2024	17.11	346.35	363.46
Additions on account of business combination (Refer note 49.1)	65.10	-	65.10
Depreciation expenses	34.26	359.16	393.42
Accumulated depreciation on disposal	(69.70)	(151.97)	(221.67)
As at 31 March 2025	46.77	553.54	600.31
Depreciation expenses	55.87	508.30	564.17
Accumulated depreciation on disposal	(7.92)	(92.61)	(100.53)
As at 31 March 2026	94.72	969.23	1,063.95
Net carrying value			
As at 31 March 2025	200.20	956.59	1,156.79
As at 31 March 2026	200.94	1,121.06	1,322.00

ii) Set out below are the carrying amounts of lease liabilities and the movements during the year:

Particulars	Offices	Warehouses	Total
As at 1 April 2024	19.50	564.80	584.30
Additions on account of business combination (Refer note 49.1)	18.40	-	18.40
Additions	198.23	691.80	890.03
Termination(**)	(13.04)	(15.16)	(28.20)
Accretion of interest	11.11	75.12	86.23
Modification	-	61.67	61.67
Payment of lease obligation	(38.26)	(390.24)	(428.50)
As at 31 March 2025	195.94	987.99	1,183.93
Current			422.90
Non-current			761.03
Particulars	Offices	Warehouses	Total
As at 31 March 2025	195.94	987.99	1,183.93
Additions	44.83	71.47	116.30
Termination(**)	(4.26)	(18.11)	(22.37)
Accretion of interest	17.77	83.76	101.53
Modification	12.56	553.49	566.05
Payment of lease obligation	(61.23)	(548.54)	(609.77)
As at 31 March 2026	205.61	1,130.06	1,335.67
Current			555.07
Non-current			780.60

(**) The Group has terminated certain lease agreements during the year due to operational reasons, owing to which, the Group has accounted an income of ₹ 79.71 million (31 March 2025 : ₹ 35.40 million) on such terminations.

iii) The table below provides details regarding contractual maturities of lease liabilities as at closing date on an undiscounted basis:

Particulars	As at 31 March 2026	As at 31 March 2025
Less than one year	626.02	511.63
One to five years	841.31	851.09
More than five years	-	-

iv) Refer note 34 for expenses relating to short-term leases and low value assets.

The Group does not face a significant liquidity risk with regard to lease liabilities as the current assets are sufficient to meet the obligations related to lease liabilities as and when they are due.

(This page has been left blank intentionally)

38 Commitments and contingent liabilities

	As at 31 March 2026	As at 31 March 2025
(a) Commitments		
Estimated amount of contracts remaining to be executed on capital account and not provided for:		
Capital commitments (Net of capital advances)	245.88	284.03
Note :		
(i) Capital commitments pertain to the Group's contractual commitment for purchase of property, plant and equipment and intangible assets under development.		
(b) Contingent liabilities		
Claims against the Group not acknowledged as debt:		
(i) Income tax matters	59.13	71.44
(ii) Indirect tax matters	18.27	18.87
Total	77.40	90.31

Note :

(i) It is not practical to estimate the timing of cash outflows, if any, in respect of above matter (b) pending resolution / completion of the appellate proceedings / other proceedings, as applicable.

(ii) The Group does not expect any reimbursement in respect of the above contingent liabilities.

(c) Based on the judgement by the Honourable Supreme Court dated 28 February 2019, past provident fund liability, is not determinable at present, in view of uncertainty on the applicability of the judgement to the Group with respect to timing and the components of its compensation structure. In absence of further clarification, the Group has been legally advised to await further developments in this matter to reasonably assess the implications on its financial statements, if any.

39 Gratuity and other post-employment benefit plans

I) Defined benefit plan (unfunded / funded)

- i) The gratuity scheme of the Holding Company is a defined benefit plan that provides for a lump sum payment to the employees on exit either by way of retirement, death, disability or voluntary withdrawal. Under the scheme, the employees are entitled to a lump sum amount aggregating to 15 days final basic salary for each year of completed service payable at the time of retirement/resignation, provided the employee has completed 5 years of continuous service. The defined benefit plan is administered by a third-party insurer. The third-party insurer is responsible for the investment policy with regards to the assets of the plan.

Liabilities with regard to the Gratuity Scheme are determined by actuarial valuation carried out using the Projected Unit Credit Method by an independent actuary.

A) Balance Sheet

Particulars	As at 31 March 2026	As at 31 March 2025
Changes in the present value of obligation		
Present value of obligation at the beginning of the year	51.22	21.66
Adjustment on account of business combination (Refer note 49.1)	-	18.10
Current service cost	13.05	8.28
Interest cost	3.56	2.25
Past service cost	8.48	-
Benefits paid	(6.58)	(6.90)
Re-measurement (or actuarial) (gain) / loss arising from:		
- change in demographic assumptions	(1.47)	1.10
- change in financial assumptions	(0.32)	3.37
- experience variance (i.e. actual experiences vs assumptions)	(5.29)	3.36
Present value of obligation at the end of the year	62.65	51.22

Bifurcation of present value of obligation at the end of the year as per revised Schedule III of the Companies Act, 2013

Amount recognised in Consolidated Balance Sheet

Present value of the obligation at the end of the year	62.65	51.22
Fair value of plan assets at the end of the year	25.67	21.57
Net liability recognised at the end of the year	36.98	29.65

Classification of provisions

Current liability (Short term)	22.32	7.39
Non-current liability (Long term)	14.66	22.26
Amounts recognized in the Consolidated Balance Sheet	36.98	29.65

B) Statement of Profit and Loss

Particulars	For the year ended 31 March 2026	For the year ended 31 March 2025
Expenses recognised in the Consolidated Statement of Profit and Loss		
Current service cost	13.05	8.28
Interest cost [net off interest income in plan assets amounting to ₹ 1.38 million (31 March 2025 : ₹ 0.66 million)]	2.18	1.59
Past service cost	8.48	-
Total expenses recognised in the Consolidated Statement of Profit and Loss	23.71	9.87

(Gain)/ loss recognised in the other comprehensive income

Re-measurement (or actuarial) (gain) / loss arising from:		
- Return on plan assets (excluding amounts included in net interest expense)	(1.07)	(0.20)
- change in demographic assumptions	(1.47)	1.10
- change in financial assumptions	(0.32)	3.37
- experience variance (i.e. actual experiences vs assumptions)	(5.29)	3.36
Components of defined benefit (income) / costs recognised in other comprehensive income	(8.15)	7.63

C) Movements in the fair value of the plan assets are as follows.

Particulars	As at 31 March 2026	As at 31 March 2025
Opening fair value of plan assets	21.57	-
Adjustment on account of business combination (Refer note 49.1)	-	20.80
Interest income	1.38	0.66
Remeasurement gain/(loss):		
Return on plan assets (excluding amounts included in net interest expense)	1.07	0.20
Contributions from the employer	1.65	2.98
Benefits paid	-	(3.07)
Closing fair value of plan assets	25.67	21.57
Category of assets		
Insurer managed funds	25.67	21.57

- D) In accordance with Indian Accounting Standard- 19 "Employee Benefits", the principal assumptions used in determining gratuity for the Group's plans are shown below:

	As at 31 March 2026	As at 31 March 2025
Discount rate	6.45% - 6.50%	6.45% - 6.50%
Salary growth rate	10.00%	10.00%
Age of retirement	58 - 60 years	58 - 60 years
Attrition / Withdrawal rates based on age: (per annum) :		
White collar employees	5.00%-30.00%	5.00%- 25.00%
Blue collar employees	47.00%	47.00%
Mortality (table)	100% Indian Assured Lives Mortality (2012- 14) Ultimate	100% Indian Assured Lives Mortality (2012-14) Ultimate

The discount rate is based on the prevailing market yields of Indian government securities as at the balance sheet date for the estimated term of the obligations.

The estimates of future salary increases, considered in actuarial valuation, take account of inflation, seniority, promotion and other relevant factors, such as supply and demand in the employment market.

	As at 31 March 2026	As at 31 March 2025
E) Maturity profile of defined benefit obligation		
Weighted average duration (based on discounted cashflows)	3 - 4 years	3 - 4 years
Expected cash flows over the next (valued on undiscounted basis):		
1 year	17.39	13.66
2 to 5 years	41.48	31.82
6 to 10 years	14.77	13.84
More than 10 years	9.25	9.71
Expected contribution during the next annual reporting year	22.08	5.00

F) Sensitivity Analysis:

Description of Risk Exposures

Valuations are performed on certain basic set of pre-determined assumptions which may vary over time. Thus, the Group is exposed to various risks in providing the above benefit which are as follows:

Interest rate risk: The plan exposes the Group to the risk of fall in interest rates. A fall in interest rates will result in an increase in the ultimate cost of providing the above benefit and will thus result in an increase in the value of liability.

Liquidity risk: This is the risk that the Group is not able to meet the short term benefit payouts. This may arise due to non availability of enough cash/cash equivalent to meet the liabilities or holding of illiquid assets not being sold in time.

Salary escalation risk: The present value of the above benefit plan is calculated with the assumption of salary increase rate of plan participants in future. Deviation in the rate of increase in salary in future for plan participants from the rate of increase in salary used to determine the present value of obligation will have a bearing on the plan's liability.

Demographic risk: The Group has used certain mortality and attrition assumptions in valuation of the liability. The Group is exposed to the risk of actual experience turning out to be worse compared to the assumption.

Regulatory risk: Gratuity benefit is paid in accordance with the requirements of the Chapter V (Gratuity) of The Code of Social Security, 2020 (as amended from time to time). There is a risk of change in regulations requiring higher gratuity payouts (for example, increase in the maximum liability on gratuity of ₹ 2.00 million).

Asset-Liability Matching: The Group has purchased insurance policy, which is basically a year-on-year cash accumulation plan in which the interest rate is declared on yearly basis and is guaranteed for a period of one year. The insurance group, as part of the policy rules, makes payment of all gratuity outgoes happening during the year (subject to sufficiency of funds under the policy). The policy, thus, mitigates the liquidity risk. However, being a cash accumulation plan, the duration of assets is shorter compared to the duration of liabilities. Thus, the Group is exposed to movement in interest rate (in particular, the significant fall in interest rates, which should result in a increase in liability without corresponding increase in the asset).

	As at 31 March 2026		As at 31 March 2025	
	Decrease	Increase	Decrease	Increase
Delta Effect of (+/- 1%) change in discount rate	65.01	60.47	53.31	49.30
(% change compared to base due to sensitivity)	7.70%	-7.10%	12.10%	-11.63%
Delta Effect of (+/- 1%) change in salary growth rate	60.77	64.62	49.40	53.14
(% change compared to base due to sensitivity)	-6.30%	6.60%	-10.95%	10.92%
Delta Effect of (+/- 50% of attrition rate) change in attrition rate	75.68	55.80	61.91	46.20
(% change compared to base due to sensitivity)	48.00%	-24.40%	64.22%	-31.19%
Delta Effect of (+/- 10% of mortality rate) change in mortality rate (*)	62.65	62.65	51.22	51.22
(% change compared to base due to sensitivity)	0.00%	0.00%	-0.26%	-0.28%

(*) The sensitivity analysis presented above may not be representative of the actual change in the defined benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated. There was no change in the methods and assumptions used in preparing the sensitivity analysis from prior years.

LEAP India Limited (formerly known as LEAP India Private Limited)
Notes to the consolidated financial statements as at and for the year ended 31 March 2026
(Amount in ₹ million, except for share data, and if otherwise stated)

II) Compensated absences

The obligations for compensated absences as at year end amounts to ₹ 12.30 million (31 March 2025: ₹ 5.29 million).

III) Defined contribution plan

Amount recognised as an expense and included in the Note as "Contribution to provident fund" and other funds under note 31 is ₹ 59.15 million (31 March 2025: ₹ 47.70 million).

	For the year ended 31 March 2026	For the year ended 31 March 2025
Employer's contribution to provident fund	51.91	40.79
Employer's contribution to ESIC	7.05	6.85
Employer's contribution to labour welfare fund	0.19	0.06
Total	59.15	47.70

41 Fair value measurements

(i) Fair value hierarchy

The fair values of the financial assets and liabilities are included at the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participant at the measurement date.

This section explains the judgments and estimates made in determining the fair values of the financial instruments that are (a) recognised and measured at fair value and (b) measured at amortised cost and for which fair values are disclosed in the financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the Group has classified its financial instruments into the three levels prescribed under the accounting standard. An explanation of each level follows underneath the table.

Level 1 : Level 1 hierarchy includes financial instruments measured using quoted prices. This includes listed equity instruments, traded bonds and mutual funds that have quoted price. The fair value of all equity instruments (including bonds) which are traded in the stock exchanges are valued using the closing price as at the reporting period.

Level 2: The fair value of financial instruments that are not traded in an active market (for example, traded bonds, over-the counter derivatives) is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.

(ii) Valuation technique used to determine fair value

Specific valuation techniques used to value financial instruments include:

- the use of quoted market prices or dealer quotes for similar instruments
- the use of discounted cash flow for fair value at amortised cost

(iii) Assets and liabilities which are measured at amortised cost for which fair values are disclosed

Financial assets and liabilities as at 31 March 2026	Carrying value				Fair value

During the years mentioned above, there have been no transfers amongst the levels of hierarchy.

42 Financial risk management

The Group's activities expose it to credit risk, liquidity risk and market risk. In order to minimise any adverse effects on the financial performance, the Group's risk management is carried out by a corporate treasury and corporate finance department under policies approved by the board of directors and top management. The Group's treasury identifies, evaluates and mitigates financial risks in close cooperation with the Group's operating units. The board provides guidance for overall the risk management, as well as policies covering specific areas. This note explains the sources of risk which the entity is exposed to and how the entity manages the risk and the related impact in the financial statements.

A Credit risk

Credit risk is the risk of financial loss arising from counterparty failure to repay or service debt according to the contractual terms and obligations. Credit risk encompasses of both, the direct risk of default and the risk of deterioration of creditworthiness as well as concentration of risks. Credit risk is controlled by analysing credit limits and credit worthiness of the customer on continuous basis to whom the credit has been granted after obtaining necessary approvals for credit. The financial instruments that are subject to concentration of credit risk principally consist of trade receivables, loans and cash and bank equivalents.

To manage credit risk, the Group follows a policy of providing 7 to 90 days credit to its customers. The credit limit policy is established considering the current economic trend of the industry in which the Group is operating. Also, the trade receivables are monitored on a periodic basis for assessing any significant risk of non-recoverability of dues and provision is created accordingly. Refer note 12.2 for ageing analysis and for information of credit loss allowance.

Loans and other financial assets includes loans granted to employees, investments in mutual funds, deposits receivable, interest accrued on deposits and other receivables. These receivables are monitored on a periodic basis for assessing any significant risk of non-recoverability of dues and provision is created accordingly.

Credit risk on cash and cash equivalents is limited as the Group generally invest in deposits with banks and financial institutions with high credit ratings assigned by international and domestic credit rating agencies.

The Group recognises lifetime expected credit losses on trade receivable using simplified approach by computing the expected credit loss allowance for trade receivables based on a provision matrix. The provision matrix takes into account historical credit loss experience and is adjusted for forward looking information. The expected credit loss allowance is based on the ageing of the receivables that are due and rates used in provision matrix.

Description of category	Basis for recognition of expected credit loss provision
(i) Assets where the counterparty has strong capacity to meet the obligations and where the risk of default is negligible or nil.	Lifetime expected credit loss (simplified approach).
(ii) Assets where the risk is low risk of default and where the counterparty has sufficient capacity to meet the obligations and where there has been low frequency of defaults in the past.	
(iii) Assets where there is high risk of default and there is no reasonable expectation of recovery, the Group continues in enforcement activity to attempt to recover the receivable due. Where recoveries are made, these are recognised in profit or loss	100% provision is considered for doubtful assets, credit impaired.

The movement of the allowance for lifetime expected credit loss is as below:

Particulars	As at 31 March 2026	As at 31 March 2025
Balance at the beginning of the year	300.64	105.28
Changes in loss allowances		
Additions	115.89	1.99
On account of business combination (Refer note 49.1)	-	199.08
Bad debts written off	(42.80)	(5.71)
Balance at the end of the year	373.73	300.64

B Liquidity risk

Liquidity risk is the risk that the Group may not be able to meet its present and future cash and collateral obligations without incurring unacceptable losses. The Group's objective is to maintain optimum levels of liquidity and to ensure that funds are available for use as per requirement.

The liquidity risk principally arises from obligations on account of financial liabilities viz, borrowings, trade payables and other financial liabilities.

The finance department of the Group is responsible for liquidity and funding as well as settlement management. In addition, processes and policies related to such risks are overseen by senior management. Management monitors the Group's net liquidity position through rolling forecasts on the basis of expected cash flows.

(i) Maturities of financial liabilities

The table below provides details regarding the remaining contractual maturities of financial liabilities (including interest) at the reporting date based on the contractual undiscounted payments.

As at 31 March 2026	Carrying amount	Contractual maturities on undiscounted basis				
Particulars		Repayable on demand	Upto 1 year	Between 1 and 5 years	Beyond 5 years	Total
Borrowings (including current maturities)	10,177.25	136.69	1,968.32	8,418.19	1,050.96	11,574.16
Lease liabilities	1,335.67	-	626.02	841.31	-	1,467.33
Trade payables	863.33	-	863.33	-	-	863.33
Other financial liabilities	773.74	-	773.74	-	-	773.74
Total	13,149.99	136.69	4,231.41	9,259.50	1,050.96	14,678.56

As at 31 March 2025	Carrying amount	Contractual maturities on undiscounted basis				
Particulars		Repayable on demand	Upto 1 year	Between 1 and 5 years	Beyond 5 years	Total
Borrowings (including current maturities)	8,016.58	25.83	1,430.68	5,856.00	735.63	8,048.14
Lease liabilities	1,183.93	-	511.63	851.09	-	1,362.72
Trade payables	776.40	-	776.40	-	-	776.40
Other financial liabilities	364.54	-	364.54	-	-	364.54
Total	10,341.45	25.83	3,083.25	6,707.09	735.63	10,551.80

C Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: Foreign currency risk, interest rate risk and price risk. The Group's exposure to market risk is primarily on account of foreign currency exchange rate risk, price risk and interest rate risk. Major financial instruments affected by market risk include borrowings, debentures and bonds.

(i) Price risk

- Exposure

The Group's exposure to equity securities price risk arises from investments held by the Group and classified in the balance sheet at "fair value through profit and loss."

- Sensitivity

The table below summarizes the impact of increases/ decreases of the BSE index on the Group's equity and gain/ loss for the year. The analysis is based on the assumption that the index has increased by 5 % or decreased by 5 % with all other variables held constant, and that all the Group's equity instruments moved in line with the index.

Impact of profit before tax

Particulars	Impact on equity		Impact on profit or loss before tax	
	As at 31 March 2026	As at 31 March 2025	As at 31 March 2026	As at 31 March 2025
BSE Sensex 30- Increase 5%	39.99	37.97	53.44	50.74
BSE Sensex 30- Decrease 5%	(39.99)	(37.97)	(53.44)	(50.74)

(ii) Cash flow and fair value interest rate risk

- Interest rate risk management

Interest rate risk is the risk that the fair value or the future cash flows of a financial instrument will fluctuate because of changes in market interest rate risks. The Group's exposure to risk of changes in market interest rates primarily to the Group's long-term debt obligations.

- Interest rate exposure

The exposure of the Group's borrowing to interest rate changes at the end of the reporting period are as follows:

Particulars	As at 31 March 2026	As at 31 March 2025
Variable rate borrowings	6,270.30	3,925.88
Fixed rate borrowings	3,906.95	4,090.70
Total	10,177.25	8,016.58

Interest rate sensitivity

The following table demonstrates the sensitivity to a reasonably possible change in interest rates on that portion of borrowings affected. With all other variables held constant, the Group's profit before tax is affected through the impact on floating rate borrowings, as follows:

Particulars	Impact on equity		Impact on profit or loss before tax	
	As at 31 March 2026	As at 31 March 2025	As at 31 March 2026	As at 31 March 2025
50 bps increase*	(23.46)	(14.69)	(31.35)	(19.63)
50 bps decrease*	23.46	14.69	31.35	19.63

* Sensitivity is calculated based on the assumption that amount outstanding as at reporting dates were utilised during the year.

(iii) Foreign currency risk

The Group does not have any outstanding balances in foreign currency and consequently the Group's exposure to foreign exchange risk is Nil. Although, the exchange rate between the rupee and foreign currencies has changed substantially in recent years, it has not affected the results of the Group. The Group evaluates exchange rate exposure arising from foreign currency transactions entered during the year and follows established risk management policies.

43 Capital management

(a) Risk management

The Group's objectives when managing capital are to :

1. Safeguard their ability to continue as a going concern, so that they can continue to provide returns for shareholders and benefits for other stakeholders, and
2. Maintain an optimal capital structure to minimize the cost of capital.

In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares, reduce debt or sell assets.

The Group manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants. To maintain or adjust the capital structure, the Group may return capital to shareholders, issue new shares or adjust the dividend payment to shareholders (if permitted). Consistent with others in the industry, the Group monitors its capital using the gearing ratio which is net debt divided by total debt + capital (equity).

The gearing ratios were as follows:

Particulars	As at 31 March 2026	As at 31 March 2025
Net debt	11,438.15	8,906.18
Total equity	10,063.32	9,173.48
Capital Gearing Ratio	53.20%	49.26%

Consistent with others in the industry, the Group monitors its capital using the net debt to equity ratio which is total debts divided by total equity and intends to manage optimal ratios. In order to achieve this overall objective, the Group's capital management, amongst other things, aims to ensure that it meets financial covenants attached to the borrowings that define the capital structure requirements.

The Group is in compliance with relevant financial covenants for both the reporting periods.

44. Interest in other entities

44.1 Investments in subsidiaries:

Sr No.	Name of the subsidiary	Principal place of business	Proportion of ownership interest		Method of accounting	Principal activities
			As at 31 March 2026	As at 31 March 2025		
1	Taron Material Handling Equipments Private Limited (TMHEPL)	India	100%	100%	Cost	Renting of material handling equipments and providing supply chain services & solutions.

46 Segment reporting

The Holding Company's Managing director (MD), Chief Executive Officer (CEO) and Chief Financial Officer (CFO) are identified as the Chief Operating Decision Maker (CODM) as defined by Ind AS 108 Operating Segments. The CODM regularly monitors and reviews the operating results of the whole Group as one segment since the Group's business operations falls within a single operating segment of pooling (for hire), trading of pallets and crates and services related thereto. Thus, as defined in Ind AS 108 'Operating Segments', the Group's entire business falls under this one operational segment and hence the necessary information has already been disclosed in the Balance Sheet and the Statement of Profit and Loss. Further, the entire business of the Group is within India, hence there is no geographical segment.

47 Other Statutory Information

- (i) The Group does not have any Benami property, where any proceeding has been initiated or pending against the Group for holding any Benami property.
- (ii) The Group does not have any charges or satisfaction which is yet to be registered with Registrar of Companies beyond the statutory year.
- (iii) The Group has not traded or invested in Crypto currency or Virtual Currency during the year.
- (iv) The Group has not advanced or loaned or invested funds to any other person(s) or entity(ies), including foreign entities (Intermediaries) with the understanding that the Intermediary shall:
- directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Group (Ultimate Beneficiaries); or
 - provide any guarantee, security or the like to or on behalf of the Ultimate Beneficiaries.
- (v) The Group has not received any fund from any person(s) or entity(ies), including foreign entities (Funding Party) with the understanding (whether recorded in writing or otherwise) that the Group shall:
- directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party (Ultimate Beneficiaries); or
 - provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
- (vi) The Group does not have any such transaction which is not recorded in the books of accounts that has been surrendered or disclosed as income during the year in the tax assessments under the Income Tax Act, 1961 (such as, search or survey or any other relevant provisions of the Income Tax Act, 1961).
- (vii) None of the entities in the Group has not been declared wilful defaulter by any bank or financial institution or government or any government authority.
- (viii) The Group has complied with the number of layers prescribed under the Companies Act, 2013.
- (ix) The Group had entered into scheme of arrangement which has an accounting impact in the previous financial year. Refer note 49.1.

48 Quarterly stock statements of current assets filed by the Group with banks or financial institutions are in agreement with the books of accounts of the Group except for the following :

Holding Company

Holding Company							
Quarter ended	Name of bank	Working capital limit sanctioned	Particulars	Amount reported in the quarterly statement	Amount as per books of accounts	Amount of difference	Reason for material variances
31 March 2026	HDFC Bank	50.00	Trade receivables	2,333.50	2,359.88	(26.38)	The differences are on account of:- 1.Submissions to the bank were made before financial reporting closure process. 2. Unbilled receivables have not been considered in trade receivables, while reporting to the bank.

49 Business combinations

49.1 Acquisition and merger of CHEP India Private Limited

During the previous year ended 31 March 2025, on 8 January 2025, the Holding Company had completed the acquisition of 100% stake in CHEP India Private Limited, a company based in Mumbai, a leading provider of reusable pallets and containers to various participants in the supply chain on a 'share and reuse' basis. The acquisition will complement the Group's synergy to make itself a reputed name in the supply chain solutions and asset pooling business.

The Board of Directors of the Holding Company had approved arrangement for amalgamation of erstwhile wholly owned subsidiary, CHEP India Private Limited ('Transferor Company') with the Holding Company (the 'Transferee Company') in its meeting held on 27 January 2025. The Scheme of amalgamation had been approved by the Regional Director, Ministry of Corporate Affairs vide order dated 17 April 2025. The certified copy of the Order had been filed with Registrar of Companies, Mumbai on 2 June 2025, on which the Scheme became effective. Accordingly, the Holding Company had accounted for the business combination transaction using the Pooling of interest method in accordance with the approved scheme as per Appendix C of Ind AS 103, Business Combinations of Entities under Common Control. The merger had no impact on the consolidated financial statement of the Group.

The business combination was conducted by entering into a share purchase agreement for a total consideration (in cash) of ₹ 10,041.30 million.

Purchase price allocated to the fair values of assets acquired and liabilities assumed includes value of customer relationships as intangible assets, which have been valued at ₹ 1,610.90 million, to be amortised over the period of 10 years. The excess of purchase consideration over net assets and the identified intangible asset has been adjusted against the retained earnings of the Transferee Company, and unadjusted remaining amount, has been recorded separately as Amalgamation adjustment deficit account, which is not tax-deductible. The fair values of the identifiable assets and liabilities of CIPL as at the date of acquisition were:

Particulars	Amount
Assets acquired	
Property, plant and equipment	1,208.69
Right-of-use assets	16.50
Investments	3,103.30
Other non-current financial assets	5.80
Income tax assets	207.67
Deferred tax assets (net)	46.60
Inventories	66.90
Trade receivables	488.40
Cash and cash equivalents	363.80
Other current financial assets	19.50
Other current assets	53.42
Total (A)	5,580.58
Liabilities taken over	
Lease liabilities	18.40
Trade payables	247.60
Short term provisions	1.60
Other financial liabilities	55.09
Other current liabilities	24.38
Total (B)	347.07
Total purchase consideration	10,041.30
Less: Total net assets acquired (A-B)	(5,233.51)
Less: Intangibles identified on business combination: Customer relationship	(1,610.90)
Add: Deferred tax on customer relationship	405.43
Less: Adjustment against the retained earnings of the transferee company	(771.50)
Amalgamation adjustment deficit account	2,839.82
Acquired receivables	
Particulars	Amount
Fair value of acquired receivables	488.40
Gross contractual amount of receivables	587.48
Contractual cash flows not expected to be collected	199.08

50 On 21 November 2025, the Government of India notified the four Labour Codes consolidating 29 existing labour laws. The Ministry of Labour and Employment has also issued draft Central Rules and FAQs to help assess the financial impact of these changes. Based on internal management assessment and the best information available, and in line with ICAI guidance, the incremental impact of these changes, not considered significant, has been recognised during the year ended 31 March 2026. The Group continues to monitor the finalisation of Central and State Rules and clarifications from the Government on other aspects of the Labour Code and would provide appropriate accounting effect subsequently on the basis of such developments as needed.

51 The Ministry of Corporate Affairs (MCA) has prescribed a requirement for companies under the proviso to Rule 3(1) of the Companies (Accounts) Rules, 2014, inserted by the Companies (Accounts) Amendment Rules 2021 requiring companies, which uses accounting software for maintaining its books of account, shall only use such accounting software which has a feature of recording audit trail of each and every transaction, creating an edit log of each change made in the books of account along with the date when such change were made and ensuring that the audit trail cannot be disabled.

The Holding Company and its Subsidiary have used accounting software for maintaining their books of account which has a feature of recording audit trail (edit log) facility at the application level and the same have been operated throughout the year. The database of the accounting software is operated by a third-party software service provider and the availability of audit trail (edit logs) are not covered in the Independent Service Auditor's Report on the Suitability of the Design and Operating Effectiveness of Controls ('Type 2 report' issued in accordance with ISAE 3402, Assurance Reports on Controls at a Service Organisation) at database level.

The audit trail, has been preserved by the Group as per the statutory requirements for record retention where the audit trail feature was enabled.

52 Subsequent events

- As part of its strategic growth and international expansion plans, the Holding Company has planned to expand its operations into the Middle East through the incorporation of LEAP MENA Holdings Limited in the UAE on 1 July 2026.
- Pursuant to the resolution passed at the Board of Directors through circulars on 15 July 2025 and 16 July 2025, necessary approval has been obtained for issue and allotment of upto 289,517,484 equity shares of face value ₹ 1 each, upon conversion of all the CCPS of the Holding Company held as on the record date 15 July 2026.
